The Lemuria 7 spaceship has been missing for over 70 years.

Now it is back in the Solar System, however there are no crew members on it. It's also unclear how the Lemuria 7 has returned and why it has been seriously damaged.

In Lemuria: Lost in Space, you play as Abrix - the robot with AI that may operate in extreme temperatures, high levels of radiation and that yields weapon and hacking modules in order to explore the whole ship.

Abrix has an ability to overrun security systems. The unique hacking mini-game will challenge your math, geographic and logical thinking skills. There is no time to check Wikipedia - every mistake costs you valuable resources!

Abrix has a special software that allows him to upgrade himself during the mission. You need to be very careful - if you run out of batteries or an anti-radiation cloak, the mission is aborted and the game is over.

In order to explore over 100 rooms of the spaceship, you'll need to solve dozens of puzzles, find valuable resources for the robot and fight with security turrets and other enemies patrolling the ship.

---

Solving puzzles not only rewards you with priceless resources, but also uncovers the story of the lost crew of Lemuria 7. The level of challenge depends on difficulty - so choose wisely or you'll need to start from scratch.

WEhat cha I say about his AWESOME arcade game? It made me remember when I was a child and I used to go to video games arcade. Playing Galaga or Space Invaders. Lovely music, addictive! What else? Great visual effects and it's quite difficult at a certain point.

So..., INSERT COIN guys! And PLAY!

Also, you can chek my review (in Spanish) about the game. Enjoy!

[https://youtu.be/fP\\_oWu1Zho8](https://youtu.be/fP_oWu1Zho8). The best worst game I've ever played.

WELCOME TO THE BONEZONE. Great game if you have loads of time and want a good story.

The water colour style portrays the gamebook style well, with a good voice over reminding me of early 40-60 sci-fi narration.

The decisions on offer do not have always have obvious outcomes were the theme is exploring an alien ship it is very fitting that you at times have some pure guess work based on loose clues.

The big BUT: the action parts of the game if it wasn't for the amount of time and button clicks it takes to just move around would be a non talking point letting the gamebook gameplay shine, but it is so slow and messes so badly with the pacing of the game if you can only pick a few games to fill a small amount of time you get them give this game a wide birth. Plus the storyline is not really simple enough to fit into a pick up and put down style, which for me is a plus but again for people with busier schedule would be a negative.

Full review\gameplay: <https://youtu.be/9qmtk0g1KZM>. only play it for the bobs and vagene. Trash. ♥♥♥♥ Linden Labs. I saw boobs 10/10 would play for 20 more hours!. Its a trap, not Worth it. Just buy "Shen last gift, Alien hunters, War of the Chosen and original game Xcom 2" separately. Other DLC not worth your money, they heavy, they expensive for their price, they make game load longer...

Dage ne vzdrachnyl. I got this because I liked all the other Painkiller games/dlc. But after playing this I found that I didn't hate it but I didn't like it either. It's not bad bad but it's just not as good as the others before it but what can you expect for \$2. Its really gay dude never should have bought it.. Bears can't drift!?! Well, actually they can and they do it pretty well. This is one of the best, if not the best clone of mario carts on the pc. The bears look adorable and cute, driving system is really nicely done, game shows you right path with the wind or arrows on the road. For the current price it's a "must" buy. I'd recommend it even if I'd buy it for the double price. It's a great casual game for both adults and children.. I would definitely recommend this game for anyone who enjoys rpgs, such as myself. I have been playing for a little while, and while i still have a strong character on the game, the people that join your alliance will prove themselves in the quests. It does look alot like old school rpgs with you having to run into creatures to do battle. I enjoyed the battle with the yeti, and eventhough i didnt know how to heal myself or bring myself back, i did a good job on the mission.. A game that leaves you doing a lot of guess work with no tutorial. If you aren't used to builder games, don't buy it as it will just frustrate you. Learning curve is steep and takes time to get used to it and the controls. Not worth full price I bought it at 51% but still contemplating if I want my money back or not. If you have the time and patience to put into the game it is worth it. If you want a game you can just quickly jump in and play this isn't it.. One of very few games in the CRTS genre, its depth and complexity stem from mechanics reminiscent of a falling block puzzle game. It's up there among my absolute favorite games, I just wish it was more well-known.. Soundtrack and visuals for this game are amazing. That combined with it's unique, but familiar arcade gameplay make this my favorite llamasoft game.
